Automated Recruitment and Hiring

WHAT IS SMART RECRUIT PRO?

It's a technology product designed to shield you from the high volume of emails and calls you get from job seekers when they apply for your job. It will handle all the emails and applications in a professional and quick manner so you don't have to.

Best of all, Smart Recruit Pro helps you stay compliant with the Department of Labor regulations regarding how U.S. applicants contact you.

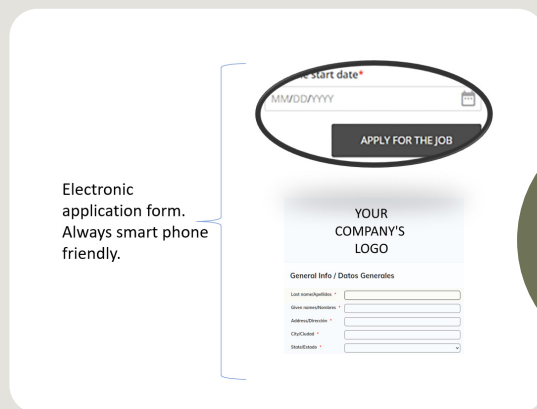

EMAIL AND WHATSAPP SUPPORT

Establish a dedicated email address and a WhatsApp support link through which candidates can access all the information about the job position.
